## Modifying the Filesystem: Takeaways №

by Dataquest Labs, Inc. - All rights reserved © 2020

## **Syntax**

```
Creating a directory called my_dir: mkdir my_dir
Deleting an empty directory called my_dir: rmdir my_dir
Creating a copy of file my_file1 as my_file2: cp my_file1 my_file2
Copying files interactively: cp - i source destination
Create a copy of directory my_dir1 as my_dir2: cp - R my_dir1 my_dir2
Deleting file my_file: rm my_file
Deleting the non-empty directory my_dir: rm-R my_dir
Moving my_file to my_dir: mv my_file my_dir
Renaming my_file as our_file: mv my_file our_file
```

## **Concepts**

- It's not easy to restore files after we delete them from the command line.
- We need to be very careful when using  $\frac{1}{m}$ ,  $\frac{1}{cp}$ , and  $\frac{1}{mv}$  as they might cause us to lose important files.
